RackiTie™

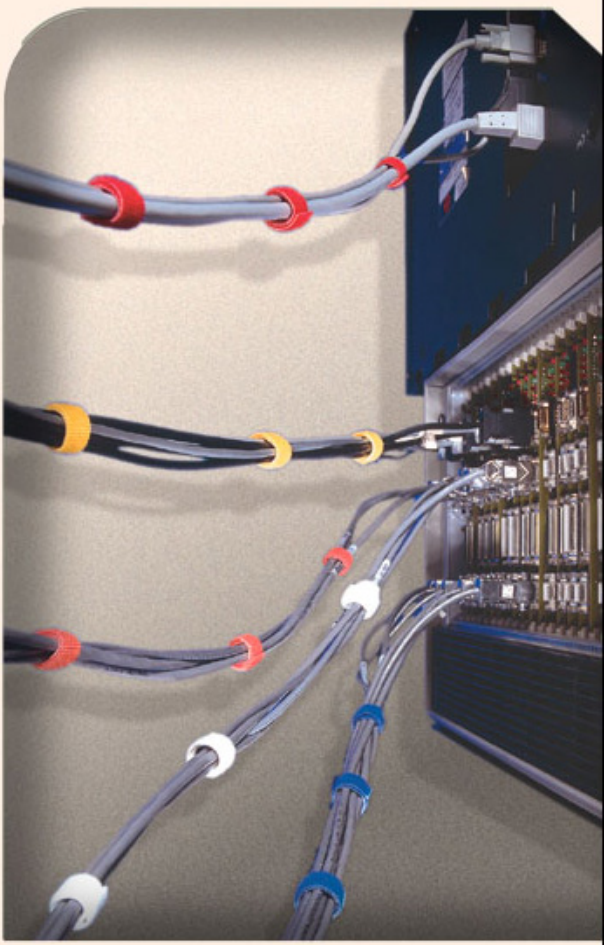
The most innovative cable management system

Rackit™ Technology Corporation offers an array of expert solutions to manage computer equipment, making LAN and datacomm environments effective and accessible, well maintained, and adaptable to changing requirements.

Reusable and adjustable straps, to manage wires, cables, and fiber optics

The 21st century solution to an age-old challenge, revolutionary RackiTie™ fiber optics and cable control straps are taking the common tie wrap to the next level of convenience and utility.

Infinitely adjustable and reusable, self gripping RackiTie™ straps provide more options and more flexibility when setting up, installing, relocating or enhancing networks and computer rooms.



RACKITIE™

RACKITIE™ APPLICATIONS

Ideal for data centers, telecom installation, and field service.

Easy to install – just snug around cables or fiber optics and touch one side of the strap (the "hook" side) to the other side (the "loop" side) – no buckles or snaps to get in the way. No tools or training needed.

Reusable – simply peel hook and loop sides apart with your hands. Infinitely adjustable – secure closure every time.

Eliminates the potential for damage to fiber optics or cables caused by over cinching or accidental cutting

- Computer equipment
- Fiber optics installations
- LAN installations
- Telecommunications equipment/installations
- Cable and wire assemblies
- Cellular telephone installations
- Electrical installations
- Electronic products
- Home office/electronics
- Instrument installations
- Lighting installations
- Appliances
